

Sebastián Mendieta

Frontend Developer

About Me

I am a professional passionate about technology and continuous learning, with the ability to adapt to different environments and tools. I stand out for my communication skills, teamwork, and problem-solving abilities—qualities that have enabled me to achieve tangible results and deliver real value in the projects I have been part of. I enjoy transforming ideas into digital solutions that create impact.

Employment History

Frontend Developer at Continental Bank, Asunción

April 2024 — Present

- Developed and maintained web applications using **React 16, Next.js 13, TypeScript, and Redux 3.7**, ensuring scalable, maintainable, and high-performance code.
- Implemented **dynamic and responsive interfaces**, optimizing the user experience across multiple devices.
- Collaborated with **UX/UI designers** and backend teams to **integrate new functionalities** and enhance the platform's usability.
- Participated in strategic projects that **strengthened data security and protection**, ensuring the reliability of online banking systems.
- Contributed with my team to Banco Continental winning the **Gold Prize in Cybersecurity at the 10th edition of the Financial Innovators Awards in the Americas 2025**, a recognition granted by Fintech Americas.

Freelance Frontend Developer

March 2021 — Present

- Created **custom web and mobile applications** for a wide range of clients, adapting to their specific needs.
- Developed dynamic and modern interfaces using **React, Next.js, Vue.js, Angular, React Native, TypeScript, and Tailwind CSS**, ensuring responsive and engaging experiences.
- Implemented **Redux** for efficient state management and performance optimization in scalable projects.
- Integrated **Node.js and external APIs**, expanding application functionality and ensuring a secure and stable data flow.
- Explored and applied mobile technologies such as **Kotlin and Swift** to broaden solution reach and adapt to different environments.
- Independently managed projects **from planning to maintenance**, strengthening my organizational and client communication skills.
