About Me

Front-End Developer with experience in creating dynamic, accessible, and optimized web interfaces for an excellent user experience. I'm passionate about innovation and continuous improvement, with skills to work in agile teams and closely collaborate with designers and back-end developers to build modern and efficient applications.

Work Experience

APRIL 2024 - PRESENT

Banco Continental S.A.E.C.A, Asunción – *Front End Developer*

Regarding front-end development

- I conducted thorough quality assurance checks on completed projects, ensuring that all client requirements were met and exceeded.
- I resolved technical issues related to front-end development, ensuring a quick resolution to maintain project deadlines.
- I used version control systems like Git to track changes throughout the development process.
- I optimized website content for mobile devices using responsive design techniques.
- I worked closely with UX/UI designers to translate their designs into functional web applications.
- I collaborated with back-end developers to enhance website functionality and integrate new features.
- I maintained website performance by performing regular updates and addressing compatibility issues across multiple platforms.
- I improved tools to enhance user interaction and provide versatility in design.

Regarding Cybersecurity:

- I was part of the team responsible for optimizing platform security by integrating **Topaz OFD**, a solution based on artificial intelligence and a risk engine for real-time threat detection.
- I contributed to improving user experience and protection.
- I maintained constant collaboration with multidisciplinary teams to implement new features aimed at preventing fraud and strengthening system security.

- Thanks to my work in the Cybersecurity department, **Banco Continental** was awarded the **Gold Prize** in the 10th edition of the [**Financial Innovators Awards in the Americas 2025**](#), a recognition granted by **Fintech Americas**.

MARCH 2022 - APRIL 2024
Freelance Developer – *Front End Jr.*

- I designed and maintained attractive and functional user interfaces.
- I optimized websites for mobile devices.
- I quickly resolved technical issues.
